**Seems Funny!**

A dark, atmospheric illustration of a woman's face, possibly a gorgon or a monster, with pale skin, dark hair, and a wide, toothy grin showing many sharp, fang-like teeth. She has large, dark, almond-shaped eyes with yellow pupils. A thick, dark chain is wrapped around her neck, with several links visible against a dark background.

Dear Student,

Our department works tirelessly to make innovative discoveries and explain physical phenomena.

As we found this old quantum physics book, written by James Clerk Maxwell, we discovered there is an entity that guides the flow of gas particles between two boxes facing each other.

These boxes have in the beginning the same temperature and pressure.

I have started the experiment, in order to observe how this mysterious entity can flow the gas between the two boxes, separating the particles into high-energy and low-energy.

This is a very dangerous experiment, since it involves some powerful particles that can travel different dimensions and summon demons.

Something went wrong.

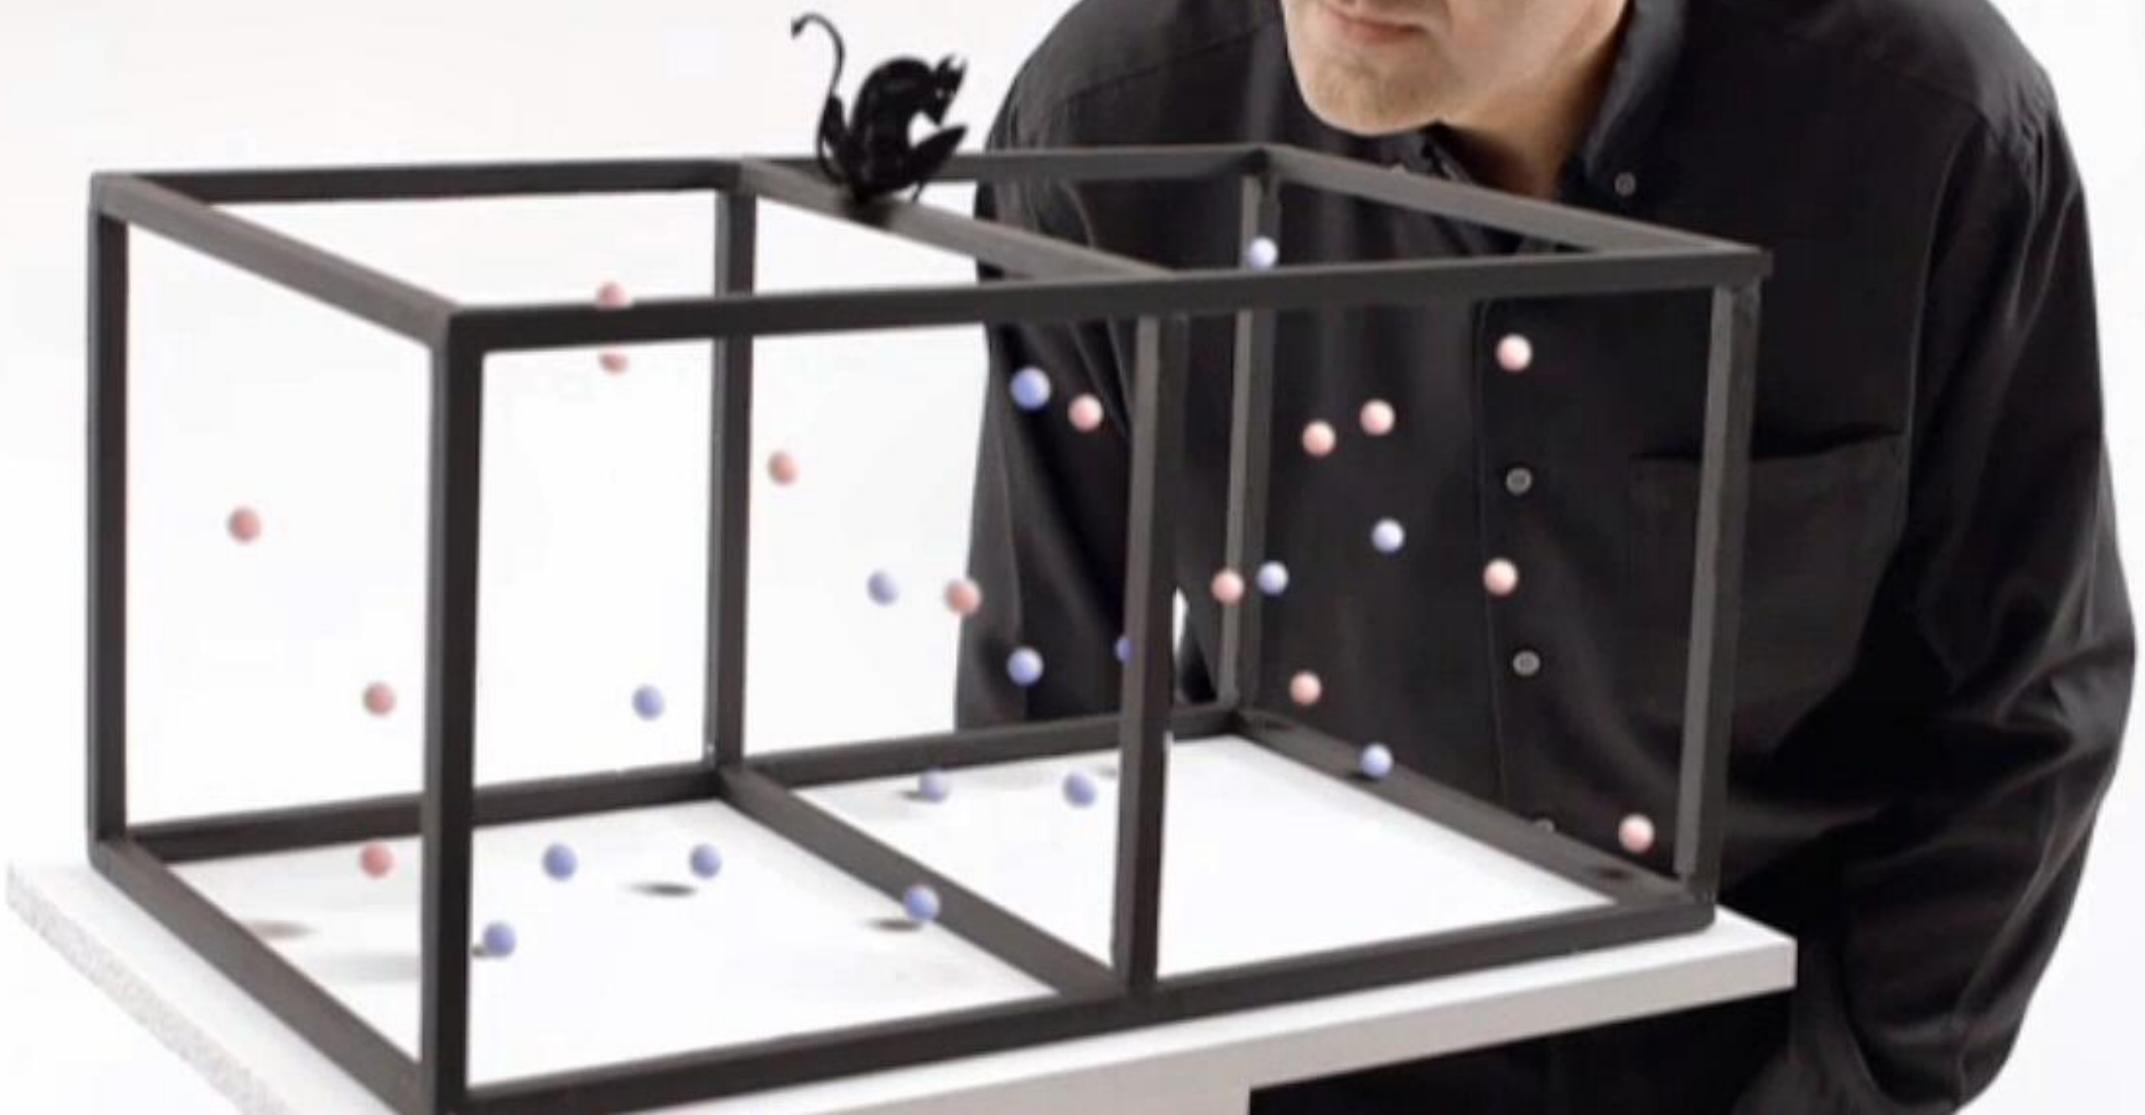

I desperately need your help!

Please come and save me!

You will find the book and some notes in my office.

Thank you,

Professor Duke
